

Friday 1st March 2024

Science Week – come and support our scientists!

Come and join in with a Science Lesson

We would like to welcome the community to the Dunbury Junior and Infant sites during British Science Week. This is an opportunity to come and learn alongside your child/children in the classroom, diving into science enquiries linked to the theme of 'Time'.

Dunbury Infants
Tuesday 12th March
13:15 to 14:00

Dunbury Juniors:
Tuesday 12th March
14:15 to 15:00

As this will swell our numbers in the classes, we are asking that parents respond to the office indicating how many adults are booking into the session and in which class.

STEM volunteers

We would also love to hear from you if you are a parent working within the STEM industry and would be happy to come in to talk to our pupils about what your job involves and what you love about your job. Science Week is a perfect opportunity to promote STEM careers to inspire pupils about their future. Please get in touch, by emailing me at beech@dunbury.dsat.org.uk with details about your role and possible availability on Thursday 14th March and Friday 15th March.

Science Selfies

We will be launching a ***Dunbury Science Selfie Challenge*** during Science Week, which will encourage pupils to take part in a science enquiry at home. It could be anything they would like to find out about. The template for your child to complete is attached below. We look forward to hearing about their enquiry ideas and what they learn!

Yours sincerely,

Mrs Jo Stoker
Science Lead

Science Selfie Challenge

Name: _____ Class: _____

Take your science selfie, print the picture and stick it in the frame below:

Enquiry question:

Now explain briefly what aspect of science your 'Super Science Selfie' shows
(you can have some help from a grown-up)!
