

6 March 2023

Dear Parents and Carers,

Your child's mid-year annual report on attainment and progress will be coming home today. In response to feedback, we are sharing this at this time to support joint working on next steps for your child. The format allows you to see where your child is on track to attain in comparisons to curriculum expectations, as well as the progress they have made to date. The descriptions on the report give further clarification on the attainment and progress statements. If you would like further information, please speak to your child's class teacher in the upcoming planned parent and carer consultation meetings on Tuesday 7th March and Wednesday 8th March.

There is a requirement to report on attendance, which can be found at the top of your child's report. There is a wealth of research which highlights the importance of good school attendance in improving a young person's chance of success in life and establishing positive attitudes to life-long learning. As always, we seek to work with parents to ensure the best possible attendance for all our children.

We are really proud of how hard the children have worked so far this year and would like to say a huge thank you to the children and parents for the efforts made. Pupils with significant gaps in English and Maths are being supported to make progress through focused interventions or curriculum adaptations. Further details on the progress they have made with this support can be found in their individual school reports.

We would welcome discussing your child's learning further at our upcoming parent and carer meetings.

Yours sincerely

Mrs. Holly Doswell
Headteacher
